

# Looking for online tutoring?

We have TWO options for you:

## **Option 1: Facebook Chat**

If you have a quick question and a Facebook account, you can message us on the Facebook link below. It can be quicker, but it is only a text chat without a whiteboard. If you have questions that are more complex or want a topic explained to you, please use option 2, which does include a whiteboard as well as audio.

## **Option 2: Online Appointment**

We also have appointments for one-on-one online tutoring. They are run through Blackboard Collaborate and have a live whiteboard and audio chat.

Booking an appointment requires an account on WOnline, our online booking system, at [www.humber.mywconline.com](http://www.humber.mywconline.com). If you have never made an appointment before, click 'Register for an account' above the login screen and fill out the form. Please use an email address and password you will remember. The password must be at least 10 characters. Once the form is completed, click 'Complete Registration' on the bottom of the page.

To book an appointment, log in to [www.humber.mywconline.com](http://www.humber.mywconline.com) and select the schedule called 'Online Math Tutoring'. The schedule will appear with blue and white squares in rows, with the times listed at the top of each column. The white squares indicate available appointments. Click on a white square with a time that works for you. When the form pops up, fill in the required fields and click 'Create Appointment'.

On the day of your appointment, click on the Blackboard Collaborate link on this page. Please join this blackboard chat several minutes before your appointment time. A tutor will join you in the chat at the start of your appointment time.
